Profile

UI/UX designer and UI developer with 6 years of experience turning complex digital products into clean, working code. I design user flows, Figma prototypes, and responsive frontend screens for web and mobile apps. Focused on cutting friction, maintaining accessibility, and keeping everyday interactions simple for users.

Skills & Tools

- **UI/UX & Product Design:** User Research, Information Architecture (IA), User Journey Mapping, Wireframing, High-Fidelity Prototyping, Usability Testing, Visual Hierarchy, Interaction Design, Responsive Design Systems.
- **UI & Frontend Development:** HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, Material UI, Component Architecture, Responsive Web Development.
- **CMS & Web Solutions:** Custom WordPress Development, Theme Integration, Dynamic Content Management.
- **Design & Collaboration Tools:** Figma, FigJam, Adobe XD, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Adobe Premiere Pro, Miro, Articulate Storyline.

Work Experience

Software Engineer (UI/UX Designer | Multimedia Designer)

Tata Consultancy Services (TCS) — Oct 2024 - Present

- Lead end-to-end user experience design for the Placement Success Program (PSP), conducting qualitative user interviews and discovery sessions to map out student learning journeys and eliminate platform drop-offs.
- Design scalable information architecture, responsive wireframes, and high-fidelity design systems in Figma, ensuring full alignment with WCAG accessibility standards across web and mobile viewports.
- Create intuitive learning dashboards and interactive assessment interfaces adopted by over 40,000 active students and faculty members nationwide.
- Partnered closely with cross-functional product managers and frontend engineering teams to inspect design specs, validate tokens, and maintain pixel-perfect UI execution during production releases.
- Design micro-interactions and produced supporting instructional motion walkthroughs and video explainers using Premiere Pro and After Effects to simplify onboarding.

Software Engineer (UI/UX Designer | UI Developer | WordPress)

Microlent Systems Pvt. Ltd. — Jan 2022 - Sep 2024

- Led end-to-end product design across web apps, SaaS analytics dashboards, and mobile applications from rough wireframes to polished Figma design systems.
- Designed and engineered multi-role dashboard architectures (e.g., Solar 4 Good) that simplified complex operational workflows across field teams, sales reps, and admins.
- Translated high-fidelity UI prototypes into clean, responsive frontend interfaces utilizing HTML5, modern CSS, JavaScript, and reusable component frameworks.
- Built performant, custom-tailored WordPress websites, developing lightweight themes and modular layouts aligned with client brand goals.
- Spearheaded brand consistency across digital and print collateral, creating high-visibility marketing graphics, event assets, and internal stationery.

Front-end Developer / WordPress Developer (UI/UX Designer)

The Bulls Media — Jan 2021 - Dec 2021

- Designed clean user journeys, wireframes, and responsive website mockups for diverse client businesses and digital consumer products.
- Developed and deployed responsive WordPress websites, building custom child themes, interactive contact flows, and dynamic CMS templates.
- Wrote clean, semantic HTML, CSS/Bootstrap, and JavaScript code to implement interactive UI components, collaborating closely with backend engineers.
- Produced supporting visual identity marks, iconography packs, and digital graphics to ensure brand coherence across customer touchpoints.

Website Developer (Web Designer and Developer)

E-Cybertech Solution June 2020 - Dec 2020

- Designed structured, mobile-first responsive landing pages and website layouts using HTML5, CSS3, and Bootstrap.
- Developed functional dynamic web pages, managing server-side form submissions, database connections, and cross-browser testing.
- Collaborated with senior teammates to debug layout inconsistencies, resolve responsiveness issues, and improve asset load speeds across viewports.

Projects

Solar 4 Good (Multi-Role Energy Platform)

Designed a mobile app with 4 separate flows for Customer, Sales Rep, Field Engineer, and Admin. This reduced support questions and made site survey handoffs faster.

Tools: Figma

Monity (Personal Finance & AI Advisor App)

Designed an easy budgeting and debt-payoff app with simple dashboards, receipt capture, and an AI chat assistant.

Tools: Figma

Traders Hub (Market Intelligence Platform)

Designed a dark-mode mobile app that shows pre-market data, economic calendars, and 1-on-1 coaching sessions in quick-to-read cards.

Tools: Figma

Education

BCA (Bachelor Of Computer Applications)

Lachoo Memorial College Of Science And Technology, Jodhpur 2017 - 2021

Certificate

Figma UI/UX Design Essentials

Udemy, 2026

Web Development Course

WsCube Tech Jodhpur, 2018
